Hi Terrie,

Thank you for the email update. After our last conversation I reached out to the CAG to inquire about the next meeting and to inquire about their use of TASC services. I received no reply from the CAG regarding either.

I will send another email to the CAG to see if I can get an update from them. We have not received any notification from the CAG regarding any upcoming meetings.

Subject: WLL CAG

Hi Ben,

I'm writing to let you know that we still have not received any information about a WLL CAG meeting in February or any requests for TASC assistance. Earlier in January, I asked about the February meeting and any TASC assistance needs via email to the official CAG email address and Doug Clemens. I followed up with a phone message to Doug. I didn't receive any response to either message. I just sent another email inquiry to a larger list of WLL CAG members. Kirby or I plan to attend the WLL CAG meetings, but not knowing the schedule makes planning difficult. We will also respond to any requests for TASC assistance in reviewing documents or making presentations, as received. We are watching the EPA and MDNR websites for the West Lake Landfill and Bridgeton Landfill for emerging issues, but our effort is minimal until we have direction from the CAG.

If you have any questions or concerns, please contact me.

Thank you.

Terrie
